

## Technical Product Data

a) Product Name	<b>PLAS-SIL</b>
b) Reference Number	P.P.25.
c) Product Description	Silicone water repellent solution. Conforms to B.S.3826 Classes A & B.
d) Uses	Waterproofing barrier for dampcourses and ideally suitable for porous surfaces.
e) Pack Sizes	5 and 25 Litre
f) Specific Gravity	0.8
g) Flash Point	Over 100 Degrees F
h) Spreading Rate @ D.R.A.T	6 sq. Metres / Litres
i) Drying Time	30 Minutes
j) Overcoating Time	30 Minutes
k) Lowest Application Temperature	5°C
l) Methods of Application	Brush, Roller and Spray
m) Recommended Preparation	See Preparation Data Sheet No.3
n) Storage Life	12 months
o) Thinner / Cleaner	White Spirit
p) Safety	Prevent inhalation - use good vapour filter mask. Keep naked flame from vicinity of work. Use barrier cream for skin protection.
